

CONCEPT NOTE

10th Africa Agri Expo (AAE 2026) Co-located with the 3rd Future Food, Livestock & Poultry Expo (FLIP 2026)

Date: 2–3 September 2026

Venue: Dar es Salaam, Tanzania

1. Overview

TAB Group presents the **10th Africa Agri Expo 2026 (AAE 2026)**, co-located with the **3rd Future Food, Livestock & Poultry Expo 2026 (FLIP 2026)**, bringing together Africa's agriculture, food, livestock, poultry, dairy, fisheries, and agribusiness sectors under one platform.

The event will connect governments, investors, farmers, agribusinesses, technology providers, researchers, financial institutions, development organizations, and industry leaders to promote investment, innovation, partnerships, and sustainable agricultural transformation.

2. Background & Previous Edition Success

Africa Agri Expo has established itself as a leading agricultural business platform in Africa.

The previous edition held in **Nairobi, Kenya**, attracted participants from **35+ countries**, including government representatives, policymakers, investors, agribusiness companies, development partners, research institutions, and technology providers.

Key highlights included:

- International Exhibition
- High-Level Conference
- Investment Discussions
- Technology Showcases
- Business Matchmaking
- Networking Opportunities

The 2026 edition will expand its regional presence by hosting the platform in **Dar es Salaam, Tanzania**.

3. Why Tanzania?

Tanzania offers significant opportunities across agriculture, livestock, poultry, dairy, fisheries, food processing, and agribusiness.

Key opportunity areas:

- Commercial agriculture
- Livestock and poultry development

- Dairy production
- Fisheries and aquaculture
- Food processing and value addition
- Agricultural mechanization
- Irrigation and water management
- AgriTech and digital farming
- Cold chain and logistics

With its strategic location within the **East African Community (EAC)** and access to African markets through **AfCFTA**, Tanzania provides strong opportunities for regional and international investment.

4. Objectives

- Promote agricultural investment opportunities.
- Connect global companies with African markets.
- Showcase innovative technologies and solutions.
- Facilitate partnerships and business opportunities.
- Support food security and sustainable agriculture.
- Encourage value addition and agro-industrial growth.
